Rarity is determined by assessing the average number of cartridges or cartridges with manuals found on eBay over time. The first update on 08/19/2020 only has one day's data, but I will attempt to add one day per month for several consecutive months. This will allow someone looking for a certain item to know the likelihood of finding it on eBay on any given day.

Scale Based on average number of item (must be cartridge) on eBay per day average:

- **Extremely Common:** > 20 / day
- **Very Common:** 15 to 20 / day
- **Common:** 10 to 14 / day
- **Uncommon:** 6 to 9 / day
- **Rare:** 4 to 5 / day
- **Very Rare:** 2 to 3 / day
- **Extremely Rare:** < 1 / day
